

Points within message – Annelie & Kjell

- The staff in the healthcare unit are planning the conversation before meeting the patient – what questions are best to ask this patient?
- Scan the patient's abilities to participate in his/her own care – the abilities are constantly changing.
- Involve the patient in his/her own care as soon as possible – be prepared that the patient's abilities throughout the care might change.

RESONANCE

THE MICROSYSTEM FESTIVAL CELEBRATING 20 YEARS
Feb 28 – March 2 Jönköping, Sweden
